

ART OF LIBERTY FOUNDATION · 2026 BOOK & GEAR CATALOG

The Most Important and Powerful Books in the World!

Designed to "Wake Up" Your Friends, Family and Colleagues to the Scam of "Government" & the Good Karma of REAL Freedom!

Most people will never read a 600-page treatise on money or the state. But they will look at a chart. Every item in this catalog is built for the 65% of people who learn visually — short, documented, image-driven, and made to be handed to someone who isn't "there" yet. Stop watching the cape. Show them the matador.

The Greatest Theft in Human History

How the Banks and "Government" Will Steal At Least $1.4 Million From Every Working American... "Legally"

A median American worker earning $60,000 a year will lose roughly $1.4 million over a 40-year career and 20-year retirement — about 58% of lifetime gross earnings. "Earn more lose more": $120K yr = $3.09 Million & so on. This 76-page, full-color book shows exactly how: the inflation tax, the Cantillon effect, and the "compound trap" of being forced to borrow at interest for inflated homes, educations and healthcare — on top of roughly $785,000 in lifetime taxation & between $16,000-$70,000+ in Social Security underpayment.

Charts show the extraction at every income level from $35K to $1M. It is the fastest way we know to turn an abstract argument about money into a personal number your reader can't un-see.

THE FLAGSHIP

"Government" - The Biggest Scam in History... Exposed!

5th Edition — expanded and redesigned

More than 20 years of research distilled into short, easily digested treatises on the hidden control system built around banking and central banking — who owns the media, who funds both "sides," and how the people pulling the strings stay out of view while the public argues left versus right.

Built for visual learners: media-ownership charts, Venn diagrams, visualizations and memes, backed by 700+ endnotes linking to books, documentaries and audiobooks. And it doesn't stop at the problem — it lays out positive, voluntary solutions.

Price: Paperback **$30.00** · High-Resolution Hardcover **$50.00** · Digital (ePub & PDF) **$10**

Sponsor Perk: Paperback included with a **$125** Sponsorship.

THE COMPANION

To See the Cage is to Leave It

25 Techniques the Few Use to Control the Many

Classrooms, newsrooms, ballot boxes, battlefields, Scouting.
This book exposes 25 unethically manipulative techniques used to manufacture belief in the necessity and legitimacy of "government" — conditioning that mirrors the methods of cults and totalitarian regimes. It doesn't ask your reader to pick a side.
It shows them how the system is built, and how to step outside it.

Ideal for the politically homeless, veterans and active-duty personnel, parents, students and entrepreneurs
— anyone who senses that "voting harder" isn't working.
