The Liberator - a 64GB uncensorable credit card-sized flash drive of visualizations, documentaries, short videos, dank memes, and truth music from the Liberty movement's leading artists. Companion Media to the new book: **"Government"** and **"The Covid" - The Two Biggest Scams in History... Exposed!** by Etienne de la Boetie?

The Art of Liberty Foundation is a start up public policy organization exposing the illegitimacy and criminality of **"Government"** from a principled voluntarist perspective.

This visualization was created by Dr. Phillip Howard, a professor at MSU studying the global food system, shows monopolization of the seed industry (200+ companies acquired) by companies that have specialized in making chemical weapons (CW) for the military and neonicotinoid insecticides (NIs) linked to pollinating bee die-offs, including: Monsanto (CW: Agent Orange, White Phosphorus), Dow (CW: Agent Orange, Napalm-B, NIs), Bayer (CW: Chlorine Gas, Sarin, Zyklon-B & NIs) and DuPont in what appears to be a plan to control and weaponize the food supply. Dow and DuPont have since merged into Corteva further monopolizing industrial production and seed industry consolidation. Other visualizations in The Liberator folder: Banking Cartel's Monopoly Consolidation, shows further monopolization of Beer, Wine, Meat Processing, Soft Drinks, Wheat and Bread and Organic Food companies.
