

Simulated Reserve and Corridor System to Protect Biodiversity

As Mandated by the Convention on Biological Diversity, The Wildlands Project, UN and US Man and Biosphere Program, and Various UN, US Heritage Programs, and NAFTA

Taken From: The United Nations Convention on Biological Diversity, Article 8a-e; United Nations Global Biodiversity Assessment, Section 13.4.2.2.3; US Man and the Biosphere Strategic Plan, UN/US Heritage Corridor Program, "The Wildlands Project", WildEarth, 1992. Also see Science, "The High Cost of Biodiversity," 25 June, 1993, pp 1968-1871 and the Border 21 Sidebar of NAFTA. The very high percentage of buffer zone in the West is due to the very high percentage of federal land. NOTE: Do not use this map for real estate purposes.

The White Rose
Mucho Grande!
An Homage
to the White Rose Society

The Liberator - a 64GB uncensorable credit card-sized flash drive of visualizations, documentaries, short videos, book in PDF, dank memes, and truth music from the Liberty movement's leading artists. Companion Media to the new book: *"Government"* and *"The Covid" - The Two Biggest Scams in History... Exposed!* by Etienne de la Boetie?

The Art of Liberty Foundation is a start up public policy organization exposing the illegitimacy and criminality of *"Government"* from a principled voluntarist perspective.

This map was constructed from core, buffer, and corridor area parameters from the Wildlands Project by Dr. Michael Coffman. Dr. Coffman played a key role in stopping the ratification of the Convention on Biological Diversity (Biodiversity Treaty) in the U.S. Senate an hour before the Senate was scheduled to vote on its ratification. His maps and information have been used by local citizens across America to stop the global agenda at the local level. This includes two UN Biosphere Reserves and the designation of at least one river within the American Heritage Rivers Initiative.

The American Heritage Rivers (AHR) and the Clean Water (CWI) initiatives are a direct product of Agenda 21 and the President's Council on Sustainable Development (PCSD). Signed by the US during the Earth Summit at Rio de Janeiro in 1992, Agenda 21 is nothing less than a 40-chapter manifesto to reorganize the world to protect earth using pure socialist principles. The goals and objectives of Agenda 21 were developed into a US strategy by the PCSD and published in a report entitled Sustainable America in 1996.

"I am especially concerned about the effect of the treaty on private property rights in my State and throughout America. Private property is constitutionally protected, yet one of the draft protocols to this treaty proposes "an increase in the area and connectivity of habitat." It envisions buffer zones and corridors connecting habitat areas where human use will be severely limited. Are we going to agree to a treaty that will require the U.S. Government to condemn property for wildlife highways? Are we planning to pay for this property?" - Senator Kay Bailey Hutchinson
