The Liberator - a 64GB uncensorable credit card-sized flash drive of visualizations, documentaries, short videos, book in PDF, dank memes, and truth music from the Liberty movement's leading artists. Companion Media to the new book: **"Government" The Biggest Scams in History... Exposed!** by Etienne de la Boetie?

The Art of Liberty Foundation is a start up public policy organization exposing the illegitimacy and criminality of **"Government"** from a principled voluntarist perspective.

The Censorship Industrial Complex is the name for a consortium "government," Big Tech, NGOs, and "Fact Checking" organizations that were discovered to be censoring information, including true information about the scam of "The Covid" and the harmfulness of the "vaccines" through the Twitter files released once Elon Musk took over the company. The visualization was created by Matt Taibbi's Racket News and is companion media to an article entitled: *Report on the Censorship-Industrial Complex: The Top 50 Organizations to Know*. You can find both the article and the visualization on: *The Liberator*.

This visualization shows the size and scope of an effort to algorithmically censor information on the DARPA Internet. Other revelations to come out about this network include investigative reporting by Mint Press News that showed the content moderation team at Twitter to be populated by "Ex" FBI officials, the content moderation team at Facebook is populated by "Ex" CIA officials, and the content moderation team at Tik Tok is populated by "Ex" State Department officials. These revelations reinforce the Art of Liberty Foundation's thesis that inter-generational organized crime is using "government" and the monopoly media to rob and control society by controlling the information the population receives to make "government" appear legitimate and conceal its obvious crimes.
