

What if you could get everything you want from “Government” (Except redistribution!) from the free market, mutual aid societies, nonprofits, and real charities?

Voluntaryism is the commonsense idea that “Government” doesn’t get an exception from morality... and because “government” is engaged in theft (taxation), coercion, and prosecution of victimless crimes that it is de facto illegitimate and criminal.

- We don’t really need “Government”! It is a technique for robbing and controlling politicians.
- Everyone would be significantly wealthier if the “government” was robbing everyone of half their income in overt taxes, covert taxes and inflation.
- Absent the organized crime monetary system, your dollar should be buying more every year as innovations and productivity improvements reduce the costs of producing and distributing the luxuries and necessities of life.

WHAT IF “GOVERNMENT” HAS BEEN A SCAM?

Hello Friends and Neighbors,

Despite what you were taught in your mandatory government school, “Government” isn’t something designed to protect life, liberty and property but was designed to rob and control society. The root words from Latin are:

Gubernare = “To Control” &
Mente = “The Mind” = **Mind Control**

Organized crime’s mind control program starts with controlling the information you have received since birth through control of education and a weaponized monopoly media and propaganda system.

The government’s mandatory “public schools” and accredited private/parochial schools use an educational model developed in 19th century Prussia (now Germany) to indoctrinate a pseudo-religion, Statism, and obedience to an organized crime system that called itself monarchy.

When the scam of monarchy / “divine right of kings” was exposed, organized crime developed “democracy” to trick the people into thinking they are in charge but easily controlling the outcome of elections through control of the media, disparity of campaign funds, blackmail, bribery, assassination, and other means.

Democracy itself is an illegitimate concept because nothing, not even if the majority believe it to be so, can make something inherently immoral (theft, extortion, caging non-violent individuals for victimless crimes, etc.) “moral” just because the majority of people decide to vote for something in a political ritual. Just because the mob wants to lynch black folks or rob Peter to pay Paul doesn’t make those obvious crimes moral just because the perpetrators outnumber their victims. The “Gubenare Mente” program raised you to believe that it is OK for the government to use violence, extortion and taxation (theft) on overwhelmingly peaceful people because some people are tricked into voting for “government”. We have been conned and duped into something that is obviously against our interests and steals ½ our income in overt taxes, covert taxes and inflation.

This election misguided Republicans are encouraging you to vote for their candidates who will then rob everyone and put their policies into place. Misguided Democrats, Greens, etc. are doing the same.

The moral and logically consistent alternative is to not vote to rob anyone!

The Good News Alternative:

Voluntaryism! - The world is a self-organizing system that produces spontaneous order and all the “services” provided by the government - from protection to roads to charity - can be better provided by voluntary interaction, the free market, and real charity.

The Unfortunate News:

Because organized crime was able to implement “Government” on the population they have been using that power to loot society. Today the leadership of all major parties is controlled by the same crooked interests and while the Republicans and Democrats pretend to be separate entities they are divided only on interests unimportant to the ruling oligarchy (Gay marriage, abortion, etc.) while being in complete lock-step on the important issues: The “legitimacy” of “Government”, the ability for private banks to create money out of thin air even though it is inflationary and steals the value from everyone else’s money, the ability for the government to tax, steal and redistribute, unending foreign wars based on lies and manufactured intelligence, and forcing you to comply with all their ridiculous edicts and mandates.
