

# Who Is Stealing the Value Out of Our Money?

## How the Organized Crime Banks Use "Government" to Rob You to Pay for A Monopoly Media "Propaganda Matrix" of Lies and Deception

Imagine I have dollar and you have a dollar and we have the only two dollars in the world

I own 50% of the world's wealth and you own 50% of the world's wealth.

### After Organized Crime Central Banking / Fractional Reserve Banking

Now a bank, central bank or "government" comes along and creates two more dollars using fractional reserve banking, "quantitative easing" and/or a printing press/digital dollar creation.

Now you and I have been reduced to owning 25% of the world's wealth, and the bank or "government" has stolen 50% of the world's wealth...

Bank/Central Bank Creates Two Additional Dollars

They have now stolen 50% of the World's Wealth

Now imagine if they took the astronomical "profits" from stealing the value out of everyone's money and bought up the media, search engines, social media and funded only crooked politicians to ensure that (almost) everything you ever saw on a screen was deception, distraction, and/or cultural debasement.

There is a resistance! and its definitely NOT Donald Trump and Elon Musk!

Is the biggest secret in American/international politics that "government" is illegitimate, immoral, completely unnecessary and run by inter-generational organized crime?

Voluntaryism, REAL Freedom, is the only moral political philosophy on the market. Every other political "ISM," including socialism, communism and constitutional republicanism, has a ruling class that has rights that you don't have, an illogical exception from morality, and "voting" is so easily rigged by monopoly media, moneyed interests, and the organized crime "government" itself counting the votes with unauditable black box voting machines and mail-in ballots that it is, frankly, a joke to think your vote matters or will even be counted

THE ART OF LIBERTY FOUNDATION

The Art of Liberty Foundation, a start-up public policy organization exposing the illegitimacy and criminality of "government" from a principled voluntaryist perspective, is also educating the public on the 2nd biggest secret: We don't really need "Government"! In a Voluntaryist world of REAL freedom, all the legitimate, non-redistributive services provided by monopoly "government" would be better provided by the free market, mutual aid societies, armed protective service companies, arbitration providers, insurance companies, non-profits and genuine charities.

The world would be much more harmonious and prosperous under REAL freedom!
